Bangkok Expressway and Metro Public Company Limited and its subsidiaries Report and consolidated interim financial statements For the three-month and nine-month periods ended 30 September 2018

Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Bangkok Expressway and Metro Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Bangkok Expressway and Metro Public Company Limited and its subsidiaries as at 30 September 2018, the related consolidated statements of income and comprehensive income for the three-month and nine-month periods ended 30 September 2018, the consolidated statements of changes in shareholders' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the consolidated financial statements. I have also reviewed the separate financial information of Bangkok Expressway and Metro Public Company Limited for the same period. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity.* A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

Emphasis of matter

I draw attention to Note 30.1.11 to the interim financial statements regarding the dispute over a

competing road with Udon Ratthaya Expressway, which involves several disagreements between

the Government and the Company and a subsidiary. The dispute, which was ruled on by the

Supreme Administrative Court, is only one of a number of all disputes under the Expressway

Concession Agreements of the Company and a subsidiary. These disputes were referred to the

Arbitral Tribunal in accordance with the dispute settlement procedures under the agreements and

to the Administrative Court. The Company and the subsidiary expect to negotiate these disputes

with the Government agency together, in order to progress to a comprehensive resolution of all

disputes. As there is still uncertainty about the form of compensation to be received by the

subsidiary, the subsidiary therefore did not record compensation of Baht 1,790 million in

accordance with the ruling of the Supreme Administrative Court, regarding the dispute over a

competing road with Udon Ratthaya Expressway, together with interest income and related

contingent expenses, in the interim statement of financial position as at 30 September 2018 and

in profit or loss for the three-month and nine-month periods ended 30 September 2018.

My conclusion is not modified in respect of this matter.

1. General information

1.1 Corporate information

Bangkok Expressway and Metro Public Company Limited ("the Company") is a public company from amalgamation under Thai law on 30 December 2015 and domiciled in Thailand. The Company's major shareholder is CH. Karnchang Public Company Limited, which was a public company incorporated in Thailand. The Company is principally engaged in the construction and management of expressways, the operation of metro services and commercial development. Its registered office of the Company is at 587 Sutthisarn Road, Ratchadaphisek Subdistrict, Dindaeng District, Bangkok. The Company has four branches.

1.2 Revision of toll rates

a) The Si Rat Expressway under the Second Stage Expressway agreement (Sector A, Sector B and Sector C) and the Extension of the Second Stage Expressway agreement (Sector D).

The Second Stage Expressway System agreement and the Extension of Second Stage Expressway System (Sector D) agreement stipulate that The Expressway Authority of Thailand ("EXAT") and the Company, as counterparties, have common obligations to consider a revision of the toll rates of the First and Second Stage Expressway Systems and the Second State Expressway System (Sector D) every five years. For the year 2018, the date set to consider the revision of the toll rates is on 1 March 2018 which such rates shall be effective from 1 September 2018 onwards. Nevertheless, EXAT did not proceed with the adjustment of such toll rates. The Company is currently proceeding with its right opposition and seeking for compensation based on the agreements.

b) The Udon Ratthaya Expressway Project (Bang Pa-In - Pak kret Expressway) under a concession agreement in respect of the construction and management of the expressway project of a subsidiary.

The Bang Pa-In - Pak kret Expressway System agreement stipulates that EXAT and Northern Bangkok Expressway Company Limited ("the subsidiary"), as counterparties, have common obligations to consider a revision of the toll rates of the Bang Pa-In - Pak kret Expressway System every five years. For the year 2018, the date set to consider the revision of the toll rates is on 1 May 2018 which such rates shall be effective from 1 November 2018 onwards. Nevertheless, EXAT did not proceed with the adjustment of such toll rates. The subsidiary is currently proceeding with its right opposition and seeking for compensation based on the agreement.

1.3 Basis for preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, income statement, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.4 Basis of consolidation

These interim consolidated financial statements have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2017, with no changes in shareholding structure of subsidiaries during the period.

1.5 New financial reporting standards

(a) Financial reporting standards that became effective in the current year

During the period, the Company and its subsidiaries have adopted the revised financial reporting standards and interpretations (revised 2017) which are effective for fiscal years beginning on or after 1 January 2018. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes and clarifications directed towards disclosures in the notes to financial statements. The adoption of these financial reporting standards does not have any significant impact on the Company and its subsidiaries' financial statements.

(b) Financial reporting standards that will become effective in the future

During the period, the Federation of Accounting Professions issued the financial reporting standard TFRS 15 Revenue from Contracts with Customers, which is effective for fiscal years beginning on or after 1 January 2019 and a set of 5 standards related to financial instruments, which are effective for fiscal years beginning on or after 1 January 2020. Key principles of these standards are summarised below.

TFRS 15 Revenue from Contracts with Customers

TFRS 15 supersedes TAS 11 Construction Contracts and TAS 18 Revenue, together with related Interpretations. Entities are to apply this standard to all contracts with customers unless those contracts fall within the scope of other standards. The standard establishes a five-step model to account for revenue arising from contracts with customers, with revenue being recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model.

The management of the Company and its subsidiaries is currently evaluating the impact of this standard to the financial statements in the year when it is adopted.

Thai Financial Reporting Standards related to financial instruments

The set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 9 Financial Instruments

TFRS 7 Financial Instruments: Disclosures

Accounting standard:

TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity

Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

The management of the Company and its subsidiaries is currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

2. Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2017.

30.1.11 Competing road with the Udon Ratthaya Expressway

On 20 December 2004, the subsidiary submitted a statement of claim requiring EXAT to compensate for the deficient revenue, based on the ground that the Government granted permission for construction of the Extension of the Don Muang Tollway Project, from the National Memorial to Rangsit Section, which constituted a competing road under the Agreement, and affected the financial position of the subsidiary, thereby rendering such damages until the date of submission of the dispute (excluding interest) to Baht 1,790 million, which the Arbitral Tribunal, on 27 November 2008, rendered its arbitral award on the dispute requiring EXAT to compensate for the deficient revenue with interest as required by the subsidiary.

Whereas, the subsidiary submitted a petition to the Central Administrative Court requesting a judgment to enforce compliance with the arbitral award, with the disputed amount of Baht 3,296 million. On 3 May 2013, The Central Administrative Court subsequently adjudged to dismiss EXAT's petition requesting the Court to revoke the arbitral award and issued a judgment to enforce compliance with the arbitral award.

On 31 May 2013, EXAT lodged an appeal against the Central Administrative Court's judgment with the Supreme Administrative Court. On 21 September 2018, the Supreme Administrative Court ruled to affirm the Judgement of the Administrative Court to enforce the arbitral award of the arbitral tribunal to compensate for the deficient revenue from the projection to the subsidiary under the Bang Pa-In - Pak kret Expressway Agreement in total of Baht 1,790 million which composed of the compensation for the year 1999 in the total of Baht 730.8 million with interest from 14 June 2000 until the payment is paid in full and the compensation for the year 2000 in the total of 1,059.2 million with interest from 22 March 2001 until the payment is paid in full. EXAT shall be required to fully comply with the Judgement within 90 days from the date the Supreme Administrative Court has ruled the Judgement, which will be due on 20 December 2018.

On 2 October 2018, the Council of Ministers' Meeting resolved that in order to alleviate the loss and damage which would occur to the Government and to protect the utmost benefits of the Government sector in the case that the Government agency has the dispute under the Court of Arbitration or is filed a lawsuit with the Administrative Court as one or several cases in the same issue or as connected thereto, for instance, the case under the responsibility of the Ministry of Transport

(Expressway Authority of Thailand), on which the Arbitral Tribunal rendered its arbitral award, thereby giving rise to the case proceedings in the Supreme Administrative Court, in which case, the Arbitral Tribunal rendered its arbitral award requiring the Government agency to compensate for the damages or others; as a result, the resolution has been passed to require that such Government agency may conduct a negotiation with its disputing party to alleviate the damage of the Government and to ensure the justice to the people, provided that such negotiation shall be conducted transparently and legitimately by mainly taking into account the benefits of the nation.

Subsequently, EXAT issued a letter dated 31 October 2018 to the subsidiary, informing that the Board of EXAT has appointed a subcommittee to consider determining the guidelines for compliance with the judgment of the Supreme Administrative Court of the dispute in the case of the competing road between EXAT and the subsidiary, so as to consider determining the guidelines for compliance with such judgment of the Supreme Administrative Court, as well as conducting a negotiation with the subsidiary and inviting the subsidiary to attend the negotiation meeting to reach an agreement for such matter.

This case is related to the conflict between the Government with the Company and the subsidiary in many cases. For the case on which the Supreme Administrative Court has already rendered the judgment, it is a part of all disputes of the Expressway Agreements of the Company and the subsidiary. There remain disputes which are pending the consideration of the Arbitral Tribunal and the Administrative Court. The Company and the subsidiary expect to enter into negotiation with the Government agency to reach a comprehensive future settlement of these mattes as a whole. Since there remains uncertainty as to the form of compensation to be derived by the subsidiary from EXAT, the subsidiary has not yet recorded revenue from compensation under the judgment of the Supreme Administrative Court in relation to the dispute regarding the competing road with the Udon Ratthaya Expressway in the total amount of Baht 1,790 million, together with interest and related expenses to be incurred, in the interim statements of financial position as at 30 September 2018 and in profit or loss for the three-month period and the nine-month period ended 30 September 2018.

- 30.2 Disputes submitted by EXAT claiming for damages in 3 disputes, with the total amount until the date of submission of the disputes of approximately Baht 1,589.2 million
 - 30.2.1 Cost of arrangements of the entrance exit and resolution of complaints

On 11 May 2007, EXAT submitted a statement of claim requiring the Company to be responsible for the cost of arrangements of the entrance - exit claimed by complainants, and the cost of free flow drains, in the total amount of Baht 0.4 million, which the Arbitral Tribunal rendered its arbitral award ruling that EXAT had no right to claim for such costs.

EXAT submitted a petition for revocation of the arbitral award to the Central Administrative Court. The Central Administrative Court subsequently issued the judgment, on 30 August 2017, to revoke the arbitral award only on the second ground part - the cost of free flow drains. The Court rules that the Arbitral Tribunal has illegally received the claim because EXAT submitted the case when the ground part was precluded by prescription.

On 29 September 2017, the Company appealed the Central Administrative Court's judgment to the Supreme Administrative Court.

At present, it is pending the Supreme Administration Court's consideration.

30.2.2 Construction of the Udon Ratthaya Expressway, Phase 2

On 29 January 2016, EXAT submitted a statement of claim to the Thai Arbitration Institute requiring the subsidiary to construct the Udon Ratthaya Expressway, Phase 2, in accordance with the conditions of the Bang Pa-In - Pak kret Expressway Agreement, and compensate for the amount of Baht 1,587.7 million, together with interest under the Agreement. The Agreement states that although the conditions of the Agreement to commence the construction has been fulfilled, the subsidiary shall not yet be obliged to carry out the construction if EXAT breach of the Agreement causing the subsidiary to suffer financial set back materially. EXAT are in breach of the Agreement with the competing road and the revision of toll rates, as mentioned on Notes 30.1.9, 30.1.10 and 30.1.11 to the interim financial statements. Therefore, the subsidiary acquired its rights to not commence the construction and EXAT is not entitled to claim for indemnity.

At present, it is pending the proceedings of the Thai Arbitration Institute.

30.2.3 Cost of utilization of the Control Center Building (Bang Phun)

On 27 February 2009, EXAT submitted a statement of claim to the Thai Arbitration Institute requiring the subsidiary to be responsible for the cost of utilization of the Control Center Building (Bang Phun) in the amount of Baht 1.1 million, which the subsidiary was of the view that such cost claimed by EXAT was not within its scope of responsibility under the Agreement.

At present, it is pending the proceedings of the Thai Arbitration Institute.

Since the disputes are pending consideration, the Company and the subsidiary therefore did not record such entries in the financial statements.

31. Fair value hierarchy

The Company and its subsidiaries use the market approach to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

In applying the above-mentioned valuation techniques, the Company and its subsidiaries endeavor to use relevant observable inputs as much as possible. TFRS 13 Fair Value Measurement establishes a fair value hierarchy categorising such inputs into three levels as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimates of future cash flows

As of 30 September 2018, the Company and its subsidiary had the following assets and liabilities that were measured at fair value using different levels of inputs as follows:

Valuation techniques and inputs to Level 2 valuations

The fair value of investments in unit trust has been determined from their net asset value as announced by Asset Management Company.

The fair value of derivatives has been determined by using a discounted future cash flow model and a valuation model technique. Most of the inputs used for the valuation are observable in the relevant market, such as interest rate yield curves.

32. Approval of interim financial statements

These interim financial statements were authorised for issue by the Company's authorised directors on 9 November 2018.
