Bangkok Expressway and Metro Public Company Limited and its subsidiaries Review report and interim financial information For the three-month and nine-month periods ended 30 September 2020

Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Bangkok Expressway and Metro Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Bangkok Expressway and Metro Public Company Limited and its subsidiaries (the Group) as at 30 September 2020, the related consolidated statements of income and comprehensive income for the three-month and nine-month periods then ended, and the related consolidated statements of changes in shareholders' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the interim consolidated financial statements. I have also reviewed the separate financial information of Bangkok Expressway and Metro Public Company Limited for the same periods (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity.* A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

Emphasis of matter

I draw attention to the following matters.

- a) As described in Note 30 to the interim consolidated financial statements, on 18 February 2020 the Cabinet passed a resolution to amend the concession agreements in order to settle all disputes between the Group and Expressway Authority of Thailand (EXAT). The Group and EXAT have agreed to settle all disputes and to cancel enforcement in accordance with the judgment of the Supreme Administrative Court described in Note 30.1.11 to the interim consolidated financial statements. On 20 February 2020, the Group and EXAT signed the Second Stage Expressway Agreement (Amendment) and the Bang Pa-In Pak Kret Expressway Project Agreement (Amendment). In the first quarter of current year, the Group and EXAT reached a settlement of all disputes and filed a petition to cancel enforcement in accordance with the judgment of the Supreme Administrative Court.
- b) As described in Notes 1.2 to the interim consolidated financial statements, the Coronavirus disease 2019 pandemic has resulted in an economic slowdown and is adversely impacting most businesses and industries in terms of supply chains, consumer spending, limited or suspended production, operational delays, and more. This situation significantly affects the Group's business activities in terms of commuter numbers and this is significantly impacting the Group's revenue while opening hours are reduced and organisations are supporting work from home policies. The Group's management has continuously monitored ongoing developments and assessed the financial impact as the situation has changed.

My conclusion is not modified in respect of these matters.

Bangkok Expressway and Metro Public Company Limited and its subsidiaries Notes to the interim consolidated financial statements For the three-month and nine-month periods ended 30 September 2020

1. General information

1.1 Corporate information

Bangkok Expressway and Metro Public Company Limited ("the Company") is a public company from amalgamation under Thai law on 30 December 2015 and domiciled in Thailand. The Company's major shareholder is CH. Karnchang Public Company Limited, which was a public company incorporated in Thailand. The Company is principally engaged in the construction and management of expressways, the operation of metro services and commercial development. Its registered office of the Company is at 587 Sutthisarn Road, Ratchadaphisek Subdistrict, Dindaeng District, Bangkok. The Company has four branches.

The MRT Blue Line Project

On 30 March 2020, the Company officially commenced commercial operation of the MRT Blue Line Project: Tao Poon Station-Tha Phra Station. As a result, the Company commenced operation and revenue-generating service of the Through Operation systems of the MRT Blue Line Project in accordance with the MRT Blue Line Concession Agreement. The MRT Blue Line Concession Agreement has a term of 30 years from the commencement date of the revenue-generating service on all sectors (30 March 2020).

The signing of the Expressway Concession Agreement

On 18 February 2020, the Cabinet passed a resolution to amend the concession agreements in order to settle all disputes between the Group and Expressway Authority of Thailand (EXAT). The Group and EXAT have agreed to settle all disputes and to cancel enforcement in accordance with the judgment of the Supreme Administrative Court, as described in Note 30 to the interim consolidated financial statements.

On 20 February 2020, the Group and EXAT signed the Second Stage Expressway Agreement (Amendment) and the Bang Pa-In - Pak Kret Expressway Project Agreement (Amendment), of which the substance are as follows:

a) The Si Rat Expressway under the Second Stage Expressway agreement (Sector A, Sector B and Sector C) and the Extension of the Second Stage Expressway agreement (Sector D).

The Company was granted extensions to 31 October 2035 of the terms of the existing agreements for both the Second Stage Expressway agreement (Sector A, Sector B and Sector C), which was to end on 29 February 2020, and the Extension of the Second Stage Expressway agreement (Sector D), which was to end on 21 April 2027.

In addition, the Company retains all rights to extend the concessions specified in the existing agreements. The remaining periods of the existing agreements are 4 years and 4 months for the Second Stage Expressway agreement and 11 years and 6 months for the Extension of the Second Stage Expressway agreement (Sector D), commencing from the end of the amended agreements. The toll rates are to be increased every 10 years by fixed amounts specified in the agreements, commencing from 1 September 2018.

b) The Udon Ratthaya Expressway Project under the Bang Pa-In - Pak Kret Expressway Agreement of a subsidiary.

The Subsidiary received an extension of the term of the existing agreement, which was to end on 26 September 2026, to 31 October 2035. The Subsidiary retains all rights to extend the concession specified in the existing agreement, of which the remaining period is 10 years and 11 months commencing from the end of the amended agreements. The toll rates are to be increased every 10 years by fixed amounts specified in the agreements, commencing from 1 November 2018.

1.2 Coronavirus disease 2019 Pandemic

The Coronavirus disease 2019 pandemic has resulted in an economic slowdown and is adversely impacting most businesses and industries in terms of supply chains, consumer spending, limited or suspended production, operational delays, and more.

This situation significantly affects the Group's business activities in terms of commuter numbers and this is significantly impacting the Group's revenue while opening hours are reduced and organisations are supporting work from home policies. The Group's management has continuously monitored ongoing developments and assessed the financial impact as the situation has changed.

1.3 Basis for preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, income statement, comprehensive income, changes in shareholders' equity and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

(Unaudited but reviewed)

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

1.4 Basis of consolidation

These interim consolidated financial statements have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2019, with no changes in shareholding structure of subsidiaries during the period.

1.5 New financial reporting standards

a) Financial reporting standards that became effective in the current period

During the period, the Group has adopted the revised (revised 2019) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below:

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows:

Financial reporting standards:

TFRS 7 Financial Instruments: Disclosures

TFRS 9 Financial Instruments

Accounting standard:

TAS 32 Financial Instruments: Presentation

Financial Reporting Standard Interpretations:

TFRIC 16 Hedges of a Net Investment in a Foreign Operation

TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments.

The impact of the adoption of these standards on the Group's financial statements is as follows.

- Classification and measurement of investments in available-for-sale equity securities The Group's available-for-sale investments in listed equity securities are measured at fair value through other comprehensive income.
- Classification and measurement of investments in equity instruments of non-listed companies - The Group measures investments in equity instruments of non-listed companies at fair value and classifies the investments as financial assets at fair value through other comprehensive income.
- Recognition of credit losses The Group recognises an allowance for expected credit losses on its financial assets, and it is no longer necessary for a credit-impaired event to have occurred. The Group applies the simplified approach to consider impairment of trade receivables.

The Group adopted these financial reporting standards which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 2 to the interim consolidated financial statements.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases.

The Group adopted these financial reporting standards using the modified retrospective method of initial adoption of which the cumulative effect is recognised as an adjustment to the retained earnings as at 1 January 2020, and the comparative information was not restated.

The cumulative effect of the change is described in Note 2 to the interim consolidated financial statements.

Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic

The Federation of Accounting Professions announced Accounting Guidance on Temporary Relief Measures for Accounting Alternatives in Response to the Impact of the COVID-19 Pandemic. Its objectives are to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation.

On 22 April 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between 1 January 2020 and 31 December 2020.

The Group has elected to apply the following temporary relief measures on accounting alternatives:

- Not to take into account forward-looking information when determining expected credit losses, in cases where the Group uses a simplified approach to determine expected credit losses.
- To measure the fair value of investments in unquoted equity instruments using the fair value as at 1 January 2020.
- Not to take the COVID-19 Pandemic as an indication of impairment in accordance with Thai Accounting Standard No. 36 Asset Impairment.

b) Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2021

The Federation of Accounting Professions issued a number of revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group is currently evaluating the impact of these standards to the financial statements in the year when they are adopted.

1.6 Significant accounting policies

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2019 except the changes in accounting policies related to financial instruments and leases.

1.6.1 Financial instruments

Classification and measurement

Financial assets that are debt instruments are measured at fair value through profit or loss, fair value through other comprehensive income, or amortised cost. Classification is driven by the Group's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets that are equity instruments are measured at fair value through profit or loss. In certain cases, the Group makes an election to measure them at fair value through other comprehensive income, with no subsequent recycling to profit or loss.

Financial liabilities are classified and measured at amortised cost.

Derivatives are classified and measured at fair value through profit or loss unless hedge accounting is applied to the derivative contracts.

Impairment of financial assets

The Group recognises an allowance for expected credit losses on its financial assets measured at amortised cost, without requiring a credit-impaired event to have occurred prior to the recognition. The Group accounts for changes in expected credit losses in stages, with differing methods of determining allowance for credit losses and the effective interest rate applied at each stage. An exception from this approach is that for trade receivables that do not contain a significant financing component, the Group applies a simplified approach to determine the lifetime expected credit losses.

Hedge Accounting

If hedge accounting criteria are met, recognition is as follows:

For cash flow hedges, a change in fair value of the effective portion of the hedging instrument is recognised in other comprehensive income, while a change in fair value of the ineffective portion of the hedging instruments is recognised in profit or loss.

1.6.2 Leases

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised through initial measurement, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

Unless the Group is reasonably certain that it will obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis from the commencement date of the lease to the earlier of the end of the useful life of the right-of-use assets or the end of the lease term.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of the lease payments to be made over the lease term, discounted by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or reassessment.

Short-term leases and Leases of low-value assets

Payments under leases that, have a lease term of 12 months or less at the commencement date, or are leases of low-value assets, are recognised as expenses on a straight-line basis over the lease term.

Cumulative effects of changes in accounting policies due to the adoption of new financial reporting standards

As described in Note 1.5 to the interim consolidated financial statements, during the current period, the Group has adopted financial reporting standards related to financial instruments and TFRS 16. The cumulative effect of initially applying these standards is recognised as an adjustment to retained earnings as at 1 January 2020. Therefore, the comparative information was not restated.

The impacts on the beginning balance of retained earnings of 2020 from changes in accounting policies due to the adoption of these standards are presented as follows:

In March 2019, the Company purchased 5 million ordinary shares of Bangkok Metro Networks Limited (subsidiary company) (equal to 20 percent of its issued and paid-up share capital) from its existing shareholders, for a total of Baht 269 million. As a result of this transaction, its shareholding in the subsidiary changed from 69.67 percent to 89.67 percent.

In July 2020, the Company purchased 0.2 million ordinary shares of Bangkok Metro Networks Limited (subsidiary company) (equal to 0.85 percent of its issued and paid-up share capital) from its existing shareholders, for a total of Baht 11 million. As a result of this transaction, its shareholding in the subsidiary changed from 89.67 percent to 90.52 percent.

The purchase transaction of investment in the subsidiary was detailed below.

10. Investments in associate

During the nine-month period ended 30 September 2019, the Company sold 33 million ordinary shares of TTW Public Company Limited amounting to Baht 399 million, and recorded gains on sale of investment in this associated company of Baht 122 million and Baht 217 million in profit or loss in the consolidated and separate financial statements, respectively. As a result, its equity interest of TTW decreased to 18.47 percent.

On 29 May 2019, a meeting of the Company's Board of Directors passed a resolution to approve the change in the purpose of investing in TTW shares and passed a resolution to approve the reclassification of the investment in TTW from investment in associated company to investment in available-for-sale securities, which was consistent with the approval of the change in the purpose of investing in TTW shares from holding for long-term investment in order to receive returns in the form of interest and dividends to holding to convert to cash when the business opportunity and timing are appropriate.

Subsequently, the Company reclassified the investment in TTW from investment in associated company to investment in available-for-sale securities, which is consistent with the reduction of its interest in that company's equity and the purpose of holding the investment. The Company recorded a gain of Baht 3,409 million as a result of the reclassification of the investment in profit or loss in the consolidated financial statements for the nine-month period ended 30 September 2019.

30. The disputes with Expressway Authority of Thailand (EXAT)

On 21 September 2018, the Supreme Administrative Court ruled to affirm the Judgement of the Administrative Court regarding the dispute over a competing road with Udon Ratthaya Expressway (Note 30.1.11), which enforced the award made by an arbitral tribunal whereby EXAT was to compensate a subsidiary for deficits in revenue compared to projections under the Bang Pa-In - Pak Kret Expressway Agreement for the years 1999 and 2000, totaling Baht 1,790 million, together with interest from 22 March 2001 until payment is made in full. On 2 October 2018, the Council of Ministers' Meeting resolved that in order to alleviate the loss and damages which would occur to the Government and to protect the utmost benefits of the government sector in cases where a government agency has disputes under the Court of Arbitration or is sued in the Administrative Court in one or several cases related to the same or connected issues, the government agency may conduct a negotiation with its disputing party to alleviate the damage to the Government and to ensure justice to the people. As a result, the Group and EXAT entered into a process to negotiate the settlement of all disputes. On 6 January 2020, EXAT and the Group reached agreements to settle all disputes, subject to the approval of the Cabinet. The substance of the agreements was as follows:

- EXAT and the Group agreed to settle all existing disputes and potential future disputes over the same issues in relation to the Concession Agreements, as described in Notes 30.1 to 30.3 to the interim consolidated financial statements.
- 2) The disputes were settled by extending the concessions without requiring investment in and improvement of the Second Stage Expressway, and construction of the Double Deck, with the terms of all three agreements extended until 31 October 2035, as described in Note 1.1 to the interim consolidated financial statements.
- 3) The Group retains all rights to extend the concessions specified in the existing agreements. The remaining periods of the existing agreements are 4 years and 4 months for the Second Stage Expressway agreement, 11 years and 6 months for the Extension of the Second Stage Expressway agreement (Sector D) and 10 years and 11 months for the Bang Pa-In Pak Kret Expressway Project agreement, commencing from the end of the amended agreements.
- 4) The toll rates are to be increased every 10 years by fixed amounts as specified in the agreements.

Subsequently, on 18 February 2020, the Cabinet passed a resolution to amend the concession agreements in order to settle all disputes for both the Second Stage Expressway Project (The Si Rat Expressway including Sector D) and the Bang Pa-In - Pak Kret Expressway Project (the Udon Ratthaya Expressway). On 20 February 2020, the Group and EXAT signed the Second Stage Expressway Agreement (Amendment) and the Bang Pa-In - Pak Kret Expressway Project Agreement (Amendment), as described in Note 1.1 to the interim consolidated financial statements.

The Group and EXAT completed settlement of all disputes, as described in Notes 30.1 to 30.3 to the interim consolidated financial statements, and the subsidiary cancelled enforcement in accordance with the judgement of the Supreme Administrative Court (Note 30.1.11) in the first quarter of the current year. As a result of the above events, the Second Stage Expressway Agreement (Amendment) of the Company and EXAT and the Bang Pa-In - Pak Kret Expressway Project Agreement (Amendment) of a subsidiary and EXAT became effective.

A total of 19 disputes were referred to Panels and Arbitral Tribunals in accordance with the dispute settlement procedures under the relevant agreements and of the Administrative Court. The substance of each dispute was as follows:

31. Fair value hierarchy

The Group use the market approach to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

In applying the above-mentioned valuation techniques, the Group endeavor to use relevant observable inputs as much as possible. TFRS 13 Fair Value Measurement establishes a fair value hierarchy categorising such inputs into three levels as follows:

- Level 1 Use of quoted market prices in an observable active market for such assets or liabilities
- Level 2 Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 Use of unobservable inputs such as estimates of future cash flows

As at 30 September 2020, the Group had the following assets and liabilities that were measured at fair value using different levels of inputs as follows:
